

"Preserving Life & Liberty"

July 2016 ~ Volume 3, Issue 3

2016 Special Election Pro-Life Voter's Edition

FEATURING

2016 CANDIDATES' PRO-LIFE QUESTIONNAIRE

* * The outcome of the 2016 election is **critical**. Candidates who embrace the pro-life platform of the Republican Party on the campaign trail will have an **edge over their opponents** as our country's future leaders in changing America's culture to one of **LIFE!**

* * In our continued efforts to promote AZ lawmakers who are unwavering in their stand for LIFE and to help the AZ Pro-Life Voter vote PRO-LIFE, the **AZ East Valley Action Alliance (AZ EVAA)** has compiled a comprehensive thought-provoking Pro-life Candidates' Questionnaire addressing the many facets of the LIFE issues **from conception to natural death**.

* * This questionnaire was made available to all 2016 AZ Candidates running for public office through various social media outlets and the **AZ EVAA** is grateful to all those candidates who so willingly participated.

* * Because it is of the essence that the voter be aware of the character of each candidate from a pro-life perspective, the **AZ EVAA** is pleased to also include in this **special election newsletter** other vital election editorials, comparisons and political commentaries that may be helpful to those, yet, undecided voters; because **"in order to save this nation for future generations, it is vital that all pro-life Americans go to the polls on election day to vote for LIFE"** – Fr. Frank Pavone, *Priests for Life*.

* * While the **AZ EVAA** does not endorse candidates, it is the goal of the **AZ EVAA** to educate the pro-life voter on the pro-life stance of our candidates in order that a more informed voter will cast his or her vote that is pleasing to **God, the author of LIFE!**

* * The **AZ EVAA** is pleased to provide you the election content herein and hope that you will find it helpful. Please feel free to also share with family and friends as deemed appropriate.

**For comments and/or questions please contact us as noted below.

EVAA Mission

FEATURING

The AZ East Valley Action Alliance 2016 Election Candidates Pro-Life Questionnaire was made available to all AZ Candidates running for public office in an effort to help the PRO-LIFE VOTER vote PRO-LIFE!

- 1.** *What does being pro-life mean to you? Give details of Pro-Life experiences, voting record, etc.*
- 2.** *How will you effectively ensure voters that your pro-life positions will be a part of your political campaign during the 2016 election cycle and continue throughout your political career, even though the particular office you are seeking/elected to will not necessarily require a pro-life stand or vote?*
- 3.** *Are you willing to participate in pro-life conferences, rallies or other public venues without compensation or identification on marketing or campaign materials? Why or why not?*
- 4.** *If given the opportunity, would you be willing to spearhead or co-sponsor a bill that would make abortion illegal (by overturning Roe v. Wade)? Why or why not?*
- 5.** *Would you be willing to sponsor or co-sponsor a bill and/or vote to prevent all taxpayer dollars from going to any and all abortion providers, (i.e., Planned Parenthood) ? Why or why not?*
- 6.** *Is the deliberate killing of a pre-born child in its mother's womb ever acceptable to you? If so, under what circumstances?*
- 7.** *Do you believe the "climate change" movement is a deliberate effort to control human population? Why or why not?*
- 8.** *Do you believe abortion should be classified as "women's healthcare"? Why or why not?*
- 9.** *Is the over-the-counter purchase accessibility of the RU-486 drug a convenient, inexpensive and effective way for our teens to terminate an unwanted pregnancy? Why or why not?*
- 10.** *It's been almost 50 years since the Supreme Court handed down Roe v. Wade. We seem no closer to over-turning this decision now than we were then, because of judicial activism:*
 - a) How would you propose addressing the problem?*
 - b) Would you be willing to vote to curb the jurisdiction of the courts over abortion? Why or why not?*
- 11.** *Is Euthanasia or Physician-assisted Suicide ever a good decision in prematurely ending a person's life? Why or why not? If so, under what conditions would this action be acceptable to you?*

(NOTE: The AZ EVAA is not responsible for the content of the Candidates' responses to the above questions. Each response was entered as received.)

Candidate: Joseph M. Arpaio ~ Office: Sheriff, Maricopa County

1. Mother gave her life for me, refused abortion when I was born, June 14, 1932. Have 4 adopted grandchildren, when they were born.
2. Speak out, as in past years.
3. Yes 4. Yes 5. Yes 6. No 7. (left blank) 8. No 9. No

Candidate: Ken Bennett ~ Office: Congress - District 1

1. Pro-life means believing that life is a precious gift from God, and must be treasured and protected from conception until natural death. As a AZ State Senator for 8 years, I always had a 100% Pro-Life voting record and was a prime sponsor of many Pro-Life bills. I worked closely with Pro-Life organizations to promote and defend a Pro-Life Arizona.
2. I happily tell people that I am Pro-Life. Of the six Republican candidates in this race, I am one of only two to identify myself as Pro-Life on my website.
3. Yes. 4. As I did in the State Senate, I will continue to sponsor Pro-Life legislation.
5. Yes. Taxpayer dollars should never be funding abortions.
6. Only in the case of being directly medically necessary to save the life of the mother, or in cases of rape and incest, so long as it is reported to law enforcement.
7. I don't know what all the motivations are behind the climate change movement. I believe the earth is a living organism which goes through warming and cooling phases. Human activity contributes to, but is not primarily responsible for climate change. We should always respect the earth and the environment and act in ways that keep it clean.
8. No. "Women's healthcare" excludes the life and healthcare of the child.
9. No. It is the killing of the child chemically.
- 10 A. Elect Presidents who will appoint Justices who respect life from conception. Amend the Constitution to protect life from conception to natural death.
- 10 B. If an Amendment can be passed, I would support limiting court jurisdiction so it can't invalidate the Right to Life by case decisions.
11. I do not support any action that prematurely ends a person's life. I do support palliative care for people whose life is naturally ending, and the right of a person to refuse resuscitation or artificial extension of their life.

Candidate: Andy Biggs ~ Office: Arizona's Fifth Congressional District

1. Being Pro-Life means everything to me. Throughout my time in the Arizona Legislature, I fought for the right to life of unborn babies. My pro-life voting record earned me a 100% voting record from the Center for Arizona Policy.
2. My pro-life stance has always been part of my campaign platform. My fight to protect life is not only part of my role as a legislative servant, but also a commitment to my family, Community and God.
3. Yes. I have prayed outside abortions centers, represented pro-life organizations Internationally and held campaign events on the issue of life.
4. Yes. 5. Yes. 6. Yes, If the mother's life is at risk.
7. I do not believe in the notion of climate change.
8. No. 9. No.
- 10 A. I would propose legislation to ensure that life is protected.
- 10 B. Yes. 11. No.

Candidate: Jennifer Brown**Office: Central Arizona Water Conservation District**

1. I will defend all stages of human life in word and deed.
2. I have always been and will always be a passionate defender of human life in any circumstance possible.
3. Yes
4. Absolutely.
5. Absolutely.
6. No. All measures should be done to protect life.
7. I have not researched this issue enough to respond.
8. No. The baby being "aborted" is 50% chance of being a female as well, so what about her healthcare, and that of any male's?
9. No.
- 10 -A. Educating children and teens of the dangers of abortion to babies and mothers. Education the general population on the atrocities done to the most innocent of us all.
- 10-B. Yes.
11. All efforts should be taken to protect life in all stages.

CANDIDATE: Ross Groen ~ Office: LD 25 HOUSE

1. The first duty of government is the protection of innocent life. The innocence of a child in the womb is hard to dispute. My parents and grandparents have been active in pro-life causes for decades and I grew up going to marches and protests. As an adult, I have worked for two Pro-Life members of Congress and have been endorsed by *Trent Franks*.
2. The sanctity of life is a core belief that transcends politics.
3. Yes, I am pro-life because I oppose abortion, not because I believe it will help win an election.
4. Yes, *Roe v. Wade* uses terrible legal reasoning to reach an atrocious result. It is a stain on our nation's character.
5. Yes, it is unconscionable to force taxpayers to subsidize abortion.
6. No.
7. I'm not sure. I think the climate change movement takes a kernel of scientific truth and exploits it to advance a statist political agenda, some of which might involve controlling the human population.
8. No, abortion ends a human life.
9. No, there is considerable emotional expense related to this abortive measure and parents should be aware of its sale to their children.
10. We need a human life amendment. I am not aware of a workable way to limit the jurisdiction of courts over this issue.
11. No, physicians should "do no harm", especially with the continued growth of state funded healthcare. It's too easy to blur the lines between compassion & cost saving.

**Candidate:
John Heep
Office:
2nd Term
Maricopa
Community
Colleges
Board of
Directors At
Large**

Pro Life, Knights of Columbus 4th degree, and Catholic . Thank you for asking!
John Heep
623-869-7977
jheep@cox.net

Candidate: John Kavanagh ~ Office: State Senate LD 23

1. Pro-life means protecting the unborn. I have supported every pro-life bill that came before me in the past 10 years and co-sponsored many of them.
2. My office does and I always proclaim my pro-life position. In fact, I advocate for pro-life.
3. Yes
4. Yes
5. Yes
6. Only to save the life of the mother.
7. I do not know. It certainly is a movement to push costly alternatives to cheap energy.
8. No. Most of these abortions are for convenience and that is not health.
9. While it may be convenient and inexpensive, I do not believe it is safe, especially for the child it is killing.
- 10 A. Elect a president who will appoint 3 pro-life Supreme Court judges.
- 10 B. That would require an amendment to the U.S Constitution, which I would support.
11. No. It is murder. In addition, modern pain management can make the end of life more bearable.

ALEX MELUSKEY SUSPENDED

U.S. SENATE CAMPAIGN

PER PRESS RELEASE JULY 31, 2016

Candidate: Bill Montgomery ~ Office: Maricopa County Attorney

1. I am a volunteer board member of a crisis pregnancy center and I have personally defended Arizona pro-life laws before the District Court of Arizona and the 9th Circuit Court of Appeals. I have also regularly attended prayer vigils outside of abortion clinics.
2. I have participated in rallies to underscore my commitment to the Pro-Life movement regardless of where we are at in the election cycle and I have also mentioned the need to protect life at all stages in addressing criminal prosecutions.
3. Absolutely! My commitment to the Pro Life cause is independent of any political consideration.
4. I would and have personally defended such laws in federal courts.
5. I would and I would be willing to prosecute criminal violations of such bills.
6. No. I believe that a medical procedure necessary to save the life of a mother may have an unintended consequence of losing the life of a baby but that is not an abortion, either.
7. It may be a part of a population control strategy to minimize so-called human contributions and thereby argue for decreased populations.
8. No because women suffer from abortion and health care should not deliberately cause suffering.
9. No because of the dangers inherent in providing medication to cause a woman's body to reject a fertilized egg and other complications can occur and have been documented.
10. A. Continued prayer and activism to change the composition of the US Supreme Court to overturn Roe v. Wade.
B: Yes and that is a legitimate option Congress could pursue.
11. Never acceptable because it devalues human life no less at the end of someone's life than abortion devalues human life at the beginning.

Candidate: Paul Mosley ~ Office: AZ House LD 5

1. I'm as Pro Life as they come as a father of 6 children. The life of a baby born or unborn is no different than the life of anyone else.
2. My pro life and pro family stance is a HUGE part of my campaign and my life.
3. Yes! I will support and campaign and conference and rally for the cause of Life.
4. Absolutely, I would love to sponsor anything that would get rid of or overturn Roe v. Wade which has been the cause of around 60 million innocent baby lives.
5. Yes a million times over. I want the money to go to pregnancy care and other pro life organizations that help woman and everyone realize that a baby is a baby. No money from the government should ever be directed to planned parenthood or any other organization that provides abortion, etc.
6. Never acceptable! There is always adoption and there are many millions of people who would like to adopt children.
7. Yes! I know that we will never run out of resources in the world and we are actually going into a Demographic Winter as the birth rate turns negative all over the world.
8. No! It's not woman's healthcare. abortion is murder. Period.
9. This is bad and should not be accessible to anyone especially our teens. Abstinence is the best and should be taught.
- 10A. Appointing conservative, Pro Life Supreme Court Justices to turn the power back to Pro Life. There will be 3 maybe 4 new Supreme Court Justices in the next 4 to 8 years.
- 10B. Yes, the Justices and the Presidents both have too much power. The checks and balances are almost no longer.
11. No, Enduring to the end is essential no matter how hard it might seem.

Candidate: Becky A. Nutt~Office: Arizona House of Representatives LD 14

becky@beckynutt.org (928) 965-8124 July 18, 2016 11:13 p.m.

1. What being pro-life means to me is that life begins at conception and, therefore, that baby has a right to live and it is not my or any other human being's place to try to eliminate that life. I am not currently, nor have been in office, nor actively involved in any pro-life organizations. I would support legislation that supports human life.
2. I am a Christian whose faith is based on Biblical facts. I believe in life at conception and do not advocate for, nor support, abortion or assisted suicide. This is a part of who I am and therefore in my dialogue as I talk to constituents.
3. What being pro-life means to me is that life begins at conception and helping that life by supporting its right to life.
4. Yes. I do not participate in things I believe in and that are important to me for compensation and some type of recognition. 5. Yes. It is not for government to pay for the killing of its children.
6. I believe any agenda of the extreme left is all about the control of all human life.
7. No. The act of aborting a fetus is not about the "healthcare" of a woman, but about eliminating an inconvenience.
8. No. It is a method for an abortion with a lot of dangerous side effects and risks.
9. Conservatives by nature are reserved and laid back, thinking that people will come to their senses. The liberal view is very noisy and squeaky and receives the majority of the attention because of that noise and their squeak. Conservatives need to rise up and get noisier and squeak louder
10. Lawmakers make the law, courts are to interpret the law. Courts (judges) should have no other jurisdiction over abortion than in determining what the law says, then upholding that.

Candidate: Justin Olson ~ Office: U.S. House of Representatives (AZ-05)

1. I am 100% pro-life. I have a 100% pro-life voting record and have been a leader in the pro-life movement. I have introduced pro-life legislation and successfully advocated its passage. In 2012, I sponsored HB2800 to defund Planned Parenthood. This year, I sponsored HB2599 which requires all abortion providers in Arizona to separately account for all the tax dollars they receive and all of the dollars used to provide abortion. This will enable Arizona to enforce the Hyde amendment which prohibits abortion providers from using tax dollars to subsidize an abortion.
2. I have been a consistent and outspoken advocate for the right to life. I regularly speak at pro-life gatherings including the conferences of the East Valley Pro-life Alliance. I will continue these efforts as the next Congressman from Arizona's 5th Congressional District.
3. I am absolutely willing to participate in pro-life conferences and rallies without compensation or identification on marketing or campaign materials. I have taken advantage of every opportunity to advocate for the right to life and I will continue to do the same as your next Congressman.
4. I will pursue every opportunity available to protect the pre-born including introducing or co-sponsoring a bill that would make abortion illegal by overturning Roe v. Wade.
5. I have already sponsored a bill to prevent all taxpayer dollars from going to abortion providers in Arizona (see HB2800 from 2012). I will continue to sponsor this effort as the district's next Congressman.
6. It would only be acceptable to save the life of the mother.
7. I do believe that the principles of the "climate change" movement can lead to efforts to control human population and this must be fought against. Carbon dioxide is the byproduct of human metabolic processes. By classifying this byproduct as a pollutant the federal government has overreached.
8. No, I do not believe that the destruction of a human life should be considered healthcare.
9. The RU-486 drug creates an abortion if the user is pregnant and should not be authorized for purchase over the counter or with a prescription.
- 10 A. We must continue to win the hearts and minds of the American people so that they will demand justices that will be voices for the pre-born. The pro-life movement has made significant progress in swaying public opinion to believe that abortion on demand should not be the law of the land. We must continue our efforts to win the hearts and minds of the American people.
B. Yes, I will vote to protect and defend the pre-born every chance I have.
11. Euthanasia should not be allowed. Our laws must protect all human life from conception to natural death.

Candidate: Warren Petersen ~ Office: AZ Senate LD12

1. Life is our first God given inalienable right. It is what drew me to the Republican party. I have consistently been recognized as a Pro-Life Champion at the Capitol for bills I have sponsored and my voting record.
2. My number one priority is to protect Constitutional rights. Since life is included it comes up naturally as part of my platform.
3. Yes, I have and will continue to.
4. Without hesitation.
5. I have worked on this issue and will continue to fight for this issue.
6. It is never okay to deliberately kill a preborn child.
7. I don't think there is a question whether the movement has tethered overpopulation with climate change and vice versa.
8. No, it is an attack on our most defenseless and it includes dangerous practices that put women's health at risk.
9. No this pill terminates the life of a child with a developing heart.
- 10A. While our Supreme Court is no closer I believe public sentiment has changed and that the populace as a whole is more willing to overturn the ruling. Science continues to prove life at earlier stages. Over time this should open doors on the National level. In the meantime we need to take the fight to them state by state. Arizona has been a leader at this.
- 10B. This has to be done on the federal level, but I absolutely support this. Congress has the authority to limit their jurisdiction and should exercise it to protect the sanctity of life.
11. No

Candidate: Kevin Payne ~ Office: AZ House LD 21

1. Pro-life means being against the murder of the unborn. There have been about 500,000 abortions through June 15th of this year alone. That far exceeds any other means of death in the USA. It is unacceptable!
2. I don't just talk the talk I will walk the walk.
3. Yes I am. Anything I can do to eliminate abortions is worth while.
4. Yes I would because I believe in protecting the unborn.
5. Yes I would. The videos I've seen where they interview various people from Planned Parenthood was appalling.
6. Only to save the life of the mother.
7. No I've never looked at it that way. I think it is a way for the climate change supporters to scare people and try to get rich off their fear.
8. No I do not. Healthcare is for saving lives not murdering them.
9. No way. The best way for teens or anyone else to prevent pregnancy is to not have sex or at the very least not have unprotected sex.
- 10A. We need a president that will appoint prolife judges to the court. People need to keep this in mind when they vote.
- 10B. Yes. There are three branches of government in USA and the courts are only one of them. We should be able to write law that will overturn the courts and if we have judges that will protect life then we can keep it that way.
11. I am not in favor of this, however I also don't want to see on going suffering of a terminally ill patient.

Candidate: Anthony Sizer ~ Office: AZ State House LD 14

1. I am pro-life as a result of my Christian values but also as a result of my adoption from India. I could have been aborted or abandoned in the country of India. My own life experience and living the American dream after being adopted and naturalized! What great opportunities a child can have and become!
2. I have expressed my adoption and Christian beliefs that has led me to my confident stance of support for pro-life. I will not support abortion after being elected to office!
3. YES I would be willing to participate in pro-life events!
4. I would be willing to be the primary sponsor and support as co-sponsor on any bills that protect and defend pro-life!
5. YES! With confidence!
6. No I would not support in most part. However, there are family related decisions when mother and father have to choose who lives or dies as a result of labor complication.
7. I am not sure if climate change has anything to do with control of humans. I would need to learn more regarding the facts and historical data.
8. I do not believe abortion should be classified as "women's healthcare"? I believe at conception, the new life being formed is independent of the mother's body.
9. I am very concerned about this question. Abstinence is important for teen education as giving them avenues and access to over-the-counter drugs which would only encourage early promiscuity!
- 10A. I would first address the constitutional reasoning which means that judiciary case law or opinions do not trump laws vetted and created by and through our legislative branch process.
- 10B. I would like to look at writing a house bill to stop judicial activism as it has become a self-governing branch usurping around our legislative laws! I would look as oversight committee and the function of bar association. These days' criminals and those with dishonorable intent use our court system to usurp around legislative laws they simply don't want to follow! That's unacceptable! I would look into creating a legislatively controlled judicial accountability committee so that the public may remove judges if they fail to cite legislatives laws in their rulings and opinions! One key change would be to redefine or even remove judicial immunity!
11. No never!

Candidate: Wendy Rogers ~ Office: U.S. Congress, District 1

1. Pro-life is an appreciation for all human life and the understanding that it begins at conception and deserves legal protection at every stage until natural death. As a mother, a grandmother, and a foster parent - my husband Hal and I have always sought to demonstrate our faith and defend life. There are only 22 Republican women in Congress. We need more pro-life women in Congress to champion these issues. I am a proud monthly contributor to the Center for AZ Policy, which is a renowned pro-life, pro-family organization.
2. I am unapologetically pro-life, and have spoken to many voters who have stated that being pro-life is their number one issue. If you send me to Congress to join the 22 other Republican women, I can assure you that I will continue to speak out on behalf of those who cannot speak for themselves—the unborn. I took an oath as a pilot in the Air Force to defend my country, and when I am sworn in as your congresswoman, I will take an equally important oath to defend all people of my country again.
3. Yes. As your congresswoman, my time will be spent serving the people of my district. This means that my priority is to help, protect, and to defend my constituents.
4. Yes. Roe v. Wade ushered in a despicable era for our country, and I will fight to turn things around to take back our country.
5. Yes. Though Planned Parenthood and some other abortion providers offer some health services, there are other places for women to go. If the government wants to subsidize women's healthcare, it should support women's centers that truly help people—people inside and outside of the womb.
6. I am opposed to abortion except when it is necessary to prevent the death of the mother.
7. The "climate change" movement is serving special interests. Many climate change advocates press for population control, which can only increase the abortion rate.
8. Abortions are absolutely not "women's healthcare". An abortion takes the life of another human being, and the use of the words "women's healthcare" is a strategy of the pro-choice movement to dehumanize the most precious and defenseless humans in our society.
9. RU-486 is not a contraceptive; RU-486 is an abortion pill. TIME magazine calls the process of a RU-486 abortion, "painful, messy, and protracted." The use of RU-486 will increase the number of abortions occurring in the United States, a horrifying prospect.
- 10A. First and foremost, I will do everything in my power to help our next president appoint pro-life justices to the Supreme Court. Though the House of Representatives does not play a role in the appointment of justices, I will use whatever personal influence I have to encourage my colleagues in the Senate to confirm pro-life justices. I will also support pro-life legislation and any legislation that seeks to overturn Roe v. Wade.
- 10B. I would be willing to support a solution that curbs judicial activism while still maintaining the integrity of the Constitution.
11. The premature end of a life is never a good decision. All life is precious and should be treated as such.

Candidate: Itasca Small ~ Office: AZ State Senate LD 25

1. I have a moral obligation to protect the sanctity of Life; from Conception to Natural Death. A nation that murders its own children is morally bankrupt, and no better than the ancient peoples who sacrificed their children in the fiery furnaces dedicated to the false god, Molech. I know that the reality of knowing an unborn child is a precious individual human life and a blessing created by God, haunts many mothers and fathers who chose to kill their children in the womb. I witnessed my dying 56-year-old husband's tearful lamentations as he shared the anguish he felt over his part years before, in the abortion of one of his children with his first wife. These children are truly at their mothers' mercy. I will defend the defenseless in any way I can!
2. I believe my focus on eradicating the evil that is the Common Core Agenda is proof of my concern for all children regardless of whether they are still protected in their mother or have been born. I led successful efforts as a citizen lobbyist in rallying the people and stopping bills in the State Legislature that would have imposed what I termed "Stealth Common Core for 3&4-year-olds" and "Stealth Common Core for 3-to-5-year-olds," in 2015 & 2016. I value and defend our innocent children. I will fight just as hard to protect them from Conception onward, as the targets of the agenda for extending Common Core by "Early Childhood Education," to "Infants & Toddlers"—from Birth to Kindergarten. To be joined in the next phase from Conception to Birth; with government workers being prepared to make regular home visits to women during pregnancy, and hospital visits at Birth, followed by regular home visits as the children grow and are channeled into Pre-school at 3-years-old to begin group-based formal brainwashing and indoctrination with Common Core pedagogy. I heard the plan described with enthusiasm at the December 8, 2014, AZ State Board of Education Meeting, and found further information on the Internet. My dedication to eradicating this evil should ensure voters that I am unequivocally pro-life at all stages of their children's lives.
3. Yes. Because it's not about me! It's about the Unborn Children and their unalienable God-given Right to Life, Liberty and the pursuit of Happiness!
4. Yes. I will do whatever the Lord empowers me to do. If that includes direct involvement in driving a stake into the evil of chosen abortion, I will trust in the Lord to empower me to do all that I can to help throw-out Roe v. Wade!.
5. Yes. Government has no authority—moral or political—to take the substance of those who earn it and use it to facilitate and fund government-sponsored infanticide! 6. No.
7. Yes. The people behind it have a deliberate agenda intended to de-industrialize the most prosperous nations and reduce the world's population in order to make it easier for power-mongers to control the people of the world.
8. No. The deliberate murder of unborn children is used for population control, convenience and eugenics, and is not healthcare.
9. Sadly, it is a "convenient, inexpensive and effective way for our teens to terminate an unwanted pregnancy!" The question should be, Is it morally right for our teens to be able to purchase RU-486 over-the-counter for the sole purpose of murdering their unborn babies? My answer would then be, "NO!" There are Moral Absolutes! And, the moral obligation to protect the life of one's own child wherever he resides is a Moral Absolute!
- 10A. Study the state constitution and the statutes to determine if any action can be taken as they stand, or if not, if there are amendments that should be proposed to end judicial activism. Also, study to see what could be done under the 9th & 10th Amendments to the U.S. Constitution on the state-level. Act upon what I find to remove the usurped power that allows judicial activism in our state and local courts. Call for our Congressional Delegation to act to rein-in the federal judiciary pursuant to Article III of the U.S. Constitution.
- 10B. Yes. Because they have promoted, aided & abetted government-sanctioned infanticide.
11. No. Life is God's to give or take-away. A physician has a moral obligation to protect Life, from Conception to Natural Death.

Candidate: Dr. Kelli Ward ~ Office: U.S. Senate

1. As a family physician and in my emergency room practice, I have had opportunities to counsel many women against abortion. Cathi Herrod of the Center for Arizona Policy said, "For the record, Kelli Ward had a 100% pro-life voting record as a state senator. Never wavered."
2. Pro-Life is a central feature of my campaign. My 100% Pro-Life Voting Record will continue to be a centerpiece of my candidacy, especially because I expect Senator McCain to falsely attack my pro-life stance toward the end of the race by twisting my words out of context as he tries to distract from his record of support for Planned Parenthood and fetal tissue research.
3. Yes. I am always willing to speak up for the unborn whenever I am given the opportunity.
4. Absolutely. I would especially like to sponsor the Human Life Amendment to the U.S. Constitution that would strip the Supreme Court of its jurisdiction and unequivocally define and defend human life.
5. Absolutely. I would even support shutting down the federal government in order to defund Planned Parenthood.
6. No.
7. The "climate change" movement used to be about global cooling, then about global warming. It is a statist scheme to maximize government control over everything. Malthusian notions of population control are a major influence here, just as they were in Margaret Sanger's evil work.
8. No. Healthcare aims at the preservation of human life by any means possible. Abortion's sole purpose is to kill unborn children, half of whom are female.
9. Unfortunately RU-486 is a "convenient, inexpensive and effective" method of abortion. I believe human life begins at conception and deserves the full and equal protection of the laws, so I do not support making pharmaceutical abortifacients more widely available.
10. A. I support a Human Life Amendment to the U.S. Constitution to assert the sanctity of human life and affirm that the unborn child has a fundamental individual right to life which cannot be infringed.
B. Yes. It never should have been in the hands of federal courts to begin with.
11. As a physician, my job is preserve, not destroy human life. Our days are numbered by God alone.

Candidate: Kathleen Winn ~ Office: Mesa City Council District 2

1. I work with victims of sex trafficking many who are pregnant. Also, poor and vulnerable. I have personally worked to get adoptions done. Life is sacred and once conceived should we treat it as such.
2. I share that I am prolife openly and willingly. I demonstrate it by my actions. I will always stand against abortion.
3. Yes I am willing to participate. I have very few materials but would be willing to promote.
4. City Council typically does not but I would if willing to be a supporter of such efforts.
5. Yes I agree with this.
6. Life of mother or rape possibly. But these cases are rare.
7. I believe it has been a fraud perpetrated to weaken our military and businesses by channeling funding elsewhere.
8. No it takes two people to create a baby and both have rights. Also we need to educate women better on the impact of pregnancy.
9. This is a dangerous precedent and no child should have to make decisions which impact their health mental physical and spiritual.
10. a) Education – we need to reset the culture. Families are under attack. Religion, Christian values - this has been a war. We need to fight both strategically.
b) We are a nation of laws. I don't agree and will fight to change those that are loopholes and dangerous. I have done several.
- 11) Under no condition. Doctors are not God. Only God is God.

Candidate: Rick Gray ~ Office: AZ Corporation Commission

1. I believe in the sanctity of life, which means protecting life from conception to natural death. My voting record reflects those values. Over the past six years I have had a 100% rating in supporting pro-life and family value issues with the Center for Arizona Policy.
2. The ACC does not deal with pro-life issues like the Legislature does, but I will personally continue to support pro-life issues and candidates because protecting life is one of my core values.
3. Yes, because it is a part of my core values.
4. This does not apply to the ACC, but I have supported pro-life bills during my 6 years in the legislature.
5. Absolutely! However, this does not apply to the ACC, but I have opposed taxpayer funding going to any abortion providers while I was in the legislature.
6. No!
7. I don't have hard evidence that the climate change movement is a deliberate effort to control human population, but there is obvious evidence that it is about control and money.
8. No, abortion should not be identified as "women's healthcare". Abortion is about the eliminating of a human life.
9. RU-486 is just another way to abort a human life in the womb. Also, it is important for parents to be involved and aware of situations like this with their children. Not only does RU-486 end a human life, it also can cause great emotional damage to the young woman using this drug.
10. A. We need a political revival of conservative values. Fortunately, with the fight that many have waged over the years to protect life, educate people and the advances of technology we see many of our young people coming to the realization that abortion is killing a human life in the womb. Sadly, I don't see a quick solution to this problem of judicial activism. It's imperative that organizations like the AZ East Valley Action Alliance, continues to identify and support those who will fight for life at all levels of government.
B. This does not apply to the ACC, but I would personally work to reduce abortions as much as possible.
11. I know there is a cultural push for euthanasia, but the unintended consequence of that is the devaluation of life

Candidate: Ron Gould ~ Office: State Senate LD5 Mohave & LaPaz Counties

1. Supporting life from conception to natural death. Over the years I have voted in favor of numerous pro-life bills.
2. Pro-life positions have always been a part of my campaigns for six elections. From city council to congress.
3. Yes, I have marched in right to life events in the past. My wife is a former long time board member of our local pregnancy care center.
4. Yes. I voted for a ban in the past.
5. Yes, I have done that in the past.
6. Only if it can be proven that to carry the child will cause the death of the mother.
7. There are people in that movement that preach population reduction.
8. Abortion is not women's healthcare. It is the ending of a human life.
9. I believe selling RU-486 over the counter has and will cause health problems for women.
- 10 A. Congress should use its power to remove abortion from the purview of the Supreme Court.
- 10 B. Yes. See above question.
11. Euthanasia is not acceptable to me. I oppose it regardless of the condition.

Candidate: Clair Van Steenwyk ~ Office: US Senate & US House CD 8

1. My wife & I ran a halfway house in LA and counseled both wed and unwed mothers on the issue and know it made a difference. Pro Life for us is Life begins at conception and if this procedure is sought must only be due to both Lives being at risk and with the Father's consent as well.
2. I already do when I appear at events and on campaign site.
3. yes
4. Yes
5. Yes and this includes voting No on the Budget when Planned Parenthood is funded in it.
6. No
7. Yes
8. No. Abortion is used as Birth Control or if you will access to free sex without being held accountable and killing the Innocent to allow promiscuity.
9. No. Parents must be at the heart of any decision made by minor children they're responsible or carry on their healthcare plan now up to 26.
- 10 A. WE need Term Limits for Federal Judges. We also need Elected Officials who aren't just committed when running or poor legislation with no real commitment if elected.
- 10 B. No. It's a Constitutional Right of all Americans to a trial thereby can't be removed without amending the US Constitution and I for one won't violate the rights of Americans, however, the 14th Amendment comes into play for the unborn child as well and must be the cornerstone for legislation or legal arguments.
11. No. This is against the very belief in Creation.

Candidate: Roberto Carlos Alfaro ~ Office: LD 29 House of Rep.

1. Pro life to myself means, the opposition of terminating pregnancies for no medical reasons and in favor of allowing all children the opportunity of life. I myself have done nothing to make me stand out as a pro-lifer.
2. I think as a conservative, I am against using abortion as a contraception, as it gives people the ability to make choices without careful consideration; it devalues family values.
3. I am willing to attend pro-life conferences to learn more about the subject.
4. No! Because in the instance that a woman is sick, or the child, an abortion may be necessary. If a woman has been raped, could she really love the child, or will it be a remembrance of her pain; in the end it will only hurt the child.
5. Yes! This I would stand for, as our taxpayer dollars should not be used for this issue, but one that provide a benefit to all.
6. Yes! As stated in the prior comments, if the pregnancy poses danger to the child or mother; this is acceptable. Also, in the case if a woman was raped.
7. No! I do not. I think there are many contributors such as farms which house cows, factories in other countries, etc.
8. To be honest, not sure at the moment.
9. It most definitely is cheaper when compared to raising a child and family.
- 10 A. All I can do is promote conservative values, speak on why I think abortion is bad in some cases, and support and represent my district, how they see fit.
- 10 B. I am for getting things done!
11. This needs to be done on a case by case basis. I feel this should only be for those in real critical conditions who have no chance of surviving.

Republicans vs. Democrats Comparison of Pro-Life Platforms

“The candidates and political party platforms in the 2016 election demonstrate a stark contrast between those of us who cherish the wonder and dignity of human life....and those who fail to recognize God as the Author of all human life. Between those of us who will fight to protect the lives of the youngest members of our human family....and those who use abortion as a weapon to advance a deadly culture of life. **For us, there is no more important issue facing America today than the evil of abortion.**

Abortion corrupts our entire society. It leads to multiple other forms of violence in our nation, the breakup of the family, and the downward spiral of public morality. And that the only way to bring peace to our nation, our cities, our communities and our families is to end the violence of abortion. Period!”

Fr. Pavone, Priests for Life

Republican Ticket: Donald Trump (President) and Governor Mike Pence (VP)

<http://www.lifenews.com/2016/05/20/hillary-clinton-pushes-for-unlimited-abortions-up-to-birth-on-a-global-scale/>

Democratic Ticket: Hillary Clinton (President) and Senator Tim Kaine (VP)

“Hillary Clinton’s positions are evil and wicked, and supporting the destruction of life of the unborn is evil, evil, evil” ~ *Pastor Jeffress, TX*

Senator Tim Kaine ~ “devout Catholic” – **100% pro-abortion voting record.**

Catholic Bishop to Tim Kaine “You can’t be Catholic and pro-abortion”

<http://www.lifenews.com/2016/07/25/catholic-bishop-to-tim-kaine-you-cant-be-catholic-and-pro-abortion/>

“Democrats are the pro-abortion party and they will do whatever is necessary to make sure Planned Parenthood continues to get abortion funding so they can sell baby body parts and make contributions to Democrats.”

Michael Becker

Gone are the days when Democratic candidates spoke softly about the “A” word. Not long ago, their platform aimed to make abortion ‘*safe, legal, and rare*’. Today, their radical agenda has been stripped of its euphemisms and phony slogans. The official Democratic platform now calls for abortion on demand – paid for by the taxpayers. Even so-called ‘*devout Catholic*’ Tim Kaine supports this extremist plan. **CatholicVote**

Millions of abortions committed yearly in the United States “cannot continue” and Cardinal Burke warns that abortion is at the root of violence in society. “The murder of the smallest and most defenseless human beings is the root of social violence. Some people say that people with serious illnesses or the elderly are useless. That is truly horrible. You can see the profoundly selfish individualistic logic that is behind this ruin of a human being and his dignity”

Cardinal Burke – LifeSite News 7-26-16.

“The world will not be destroyed by those who do evil, but by those who watch and do nothing”.

Albert Einstein

LEADERSHIP IS ABOUT CHARACTER!

****Arizona** voters can be proud of our dedicated 100% pro-life conservative leadership we have in our representatives and legislators!

****** We must continue to support those already holding an office and those who are running for an office in the 2016 elections; to protect our Arizona families and Country, through legislation, from a socialistic regime, that if left unchecked, will eventually destroy the family and our freedoms!

Reminder: *“It is vital that pro-life Americans go to the polls on election day and VOTE FOR LIFE!”*

Fr. Frank Pavone, Priests for Life

Vote Pro-Life

Before You Say You Won't Votesome people have stated that they won't vote if the nominee is not the person they preferred.

To those who say "they won't vote"please consider the following:

- ** *Justice Scalia's seat is vacant*
- ** *Justice Ginsberg is 82 years old*
- ** *Justice Kennedy is 79 years old*
- ** *Justice Breyer is 77 years old*
- ** *Justice Thomas is 67 years old*

Current data shows that the average age of a Supreme Court retirement or death occurs after the age 75. There are five (5) vacancies that will likely occur over the next 4-8 years.

The next President will have the power to potentially create a 7-2 Supreme Court skewed in their ideology. Think about the effects of what a 7-2 Supreme Court will have on the future of our Country.....

** If the next president appoints five (5) young Justices it will guarantee control of the Supreme Court for an entire generation.

** 7-2 decisions will hold up much more over time than 5-4 decisions which are viewed as lacking in mandate.

** Hillary Clinton has made it clear she will use the Supreme Court to destroy our 2nd Amendment, literally saying that the Supreme Court should overturn and remove our individual right to keep and bear arms. **Period!**

** If Hillary Clinton wins because disgruntled GOP voters refuse to vote for the Party's nominees, it is likely you will ***never*** see another ***conservative victory*** at the Supreme Court level for the rest of your life.....***ever!***

Remember Romney??? Three million conservatives who had voted for McCain ***did not vote for Romney*** (for whatever reason)...and the result was four more years of Obama.

One final thought.....Hillary Clinton is already on the record as saying that her buddy, Obama "would make a great Supreme Court Justice"! THINK ABOUT THAT and the harm it could do to our Country!!

***PRAY....and then VOTE for the Republican PRO-LIFE Ticket.
For generations to come, our children and our grandchildren
are depending on us to protect their God-given freedoms!!***

"Preserving Life & Liberty"

AZ East Valley Action Alliance Brings Pro-Life Message to GOP Chairman's Dinner On the Anniversary of Roe vs. Wade, January 22, 2016

**GOP Chairman, Robert Graham Calls for a
Moment of Silence in Remembrance of the 61 Million Babies
Killed By Abortion**

Bonnie Waite, Jinny & Joe Perron**

PRO-LIFE AMERICA

A new Marist poll finds:

- ** 78 % of Americans support restrictions on abortion that would effectively limit the procedure to the first three months of pregnancy;**
- ** 62% of Americans oppose taxpayer funding of abortions;**
- ** While the Supreme Court recently overturned a number of commonsense regulations passed by the State of Texas, the Marist poll finds that those regulations were overwhelmingly popular with the American people;**
- ** 78% of Americans believe abortion clinics should meet the same standards as other surgery centers;**
- ** 70% of Americans want doctors who perform abortions to be required to have hospital admitting privileges.**

VOTE PRO-LIFE! ...because without *Life,*
Liberty and the Pursuit of Happiness aren't possible!

RONALD REAGAN

- Mocked and not considered to be a serious candidate before winning the Presidency
- Was a TV celebrity before running for office
- Was a Democrat before switching to Republican
- Used "Make America Great Again" as his campaign slogan
- Attacked by a protester at the podium during a speech
- Used straight talk and humor to communicate with supporters
- Became the oldest President elected
- 1st President that had a divorce
- Succeeded a Democrat President
- Pro immigration but strongly against illegal immigration
- Pro life, Pro 2nd Amendment, and Pro tax reduction
- Initially considered to "not be a true conservative" by the Establishment but increased GOP voter turnout and became a Republican Party icon and beloved President

DONALD TRUMP

- Mocked and not considered to be a serious candidate despite being the GOP frontrunner
- Was a TV celebrity before running for office
- Was a Democrat before switching to Republican
- Using "Make America Great Again" as his campaign slogan
- Attacked by a protester at the podium during a speech
- Uses straight talk and humor to communicate with supporters
- Would become the oldest President if elected
- Would be the 2nd President that had a divorce
- Would succeed a Democrat President
- Pro Immigration but strongly against illegal immigration
- Pro life, Pro 2nd Amendment, and Pro tax reduction
- Considered to "not be a true conservative" by the establishment but has increased GOP voter turnout considerably from the last two elections and can potentially become a Republican Party Icon and beloved President

Why Voting for Donald Trump Is a Morally Good Choice

Townhall By Wayne Grudem

I am a Jew turned evangelical Christian . I am also a passionate supporter of.....

Wayne Allyn Root | A Message For Christians About Donald ...

PRAYER AT ELECTION TIME

O Lord, our just and loving Father,
we thank you for the precious gift of human life
that is greatly threatened by the culture of death.
Aware of the dangers we are now facing, we ask that you
guide us in electing the leaders our nation truly needs:

Leaders with the wisdom to discern your providential plan,
Leaders who understand the weakness of the human condition,
Leaders who counsel our citizens to respect the rule of law,
Leaders with the fortitude to face their opponents with grace,
Leaders with knowledge of our Constitution of natural rights,
Leaders whose piety makes them aware of their own limitations,

We pray that the inalienable rights to life, liberty, and the pursuit of
happiness, promised by our founders, may be preserved, protected, and
defended for all, especially the most vulnerable members of our society.

Almighty and Merciful God, sustain us in our struggle
to live in peace as one nation under God. Amen.
